Stitches

Simple and Basic Hand Stitching Instructions for Construction and Decorative Stitching

Braided Round Stitch

Forward 2 holes on top side, back 1 hole on the bottom side.

Needle comes up on top on the **SAME SIDE** of thread each stitch.

Braided Square Stitch

Forward 2 holes on top side, back 1 hole on the bottom side.

Needle comes up on top on **ALTERNATING** sides of thread each stitch.

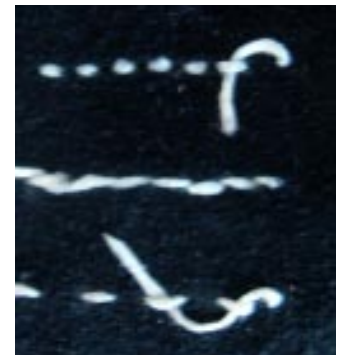

Running Back Stitch

In and out each hole, then back the other direction in the same holes, which fills in the blank spaces of the Running Stitch.

Running Stitch

In and out each hole start to finish.

Ends of Stitch

On Backside: weave thread ends under 1 or 2 stitches

Tools

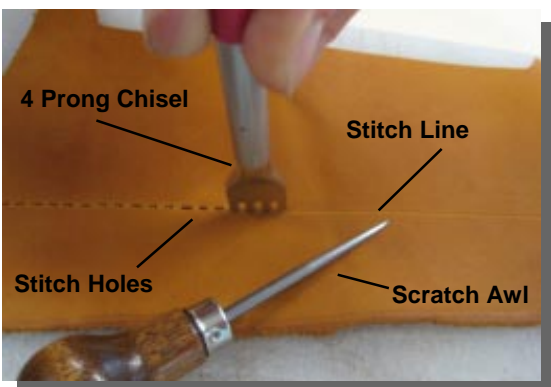

Pronging Chisels, Rawhide Mallet, Knife, Scissors, Scratch Awl

Needles & Thread

Harness Needles, Beeswax, Hand Sewing Thread

How To Punch Holes & Stitch

Rubbing the wax on the thread will melt the wax and coat the thread for easier stitching and to protect the thread.

NEVER STRIKE A METAL TOOL WITH A METAL HAMMER !

ALWAYS POUND TIP OF TOOL INTO CUTTING BOARD !

Very Important to Hold Chisel Tool 90 Degrees !

1. Cement pieces together before punching holes for stitching.
2. Use Scratch Awl to mark stitch line on the leather.
3. Hold Pronging Chisel straight up and down, 90 Degrees.
4. Strike pronging chisel with rawhide mallet.
5. To keep holes an equal distance place one point of chisel in last hole.
6. Use 4 prong punch to go long straight distances.
7. Use 2 prong punch to go around corners.
8. Use 1 prong punch to end or fill in spaces, or to free form pattern.

Roll Up Organizer

“ Tool Kit “

1. Cut 1 Large Back Panel
2. Cut 1 Small Front Panel
3. Cement Small Panel to Large Panel
Along the Bottom and Ends
4. Punch Holes for Stitching
5. Stitch Outside Edges
6. Measure Your Tools and Adjust Stitch Dividers to Your Specs
Pattern is 1 1/4" - 30mm Wide
7. Punch Holes and Stitch Dividers

Large Back Panel

Hole for Lace Tie

Stitch Lines - - - - -

One Stitch Over the Edge to Secure Divider

Small Front Panel

Divider Stitch Lines

Spacing 1 1/4" - 30mm

Create Your Own Spacing for Your Tools

Alternate Top Line for Small Panel - Shorter Tools

Smaller Divider Spacing

○ Hole for Lace Tie

Large Back Panel
Folds to Create a Flap

Document Pouch
“ With a Flap “
Holds # 10 Envelope

One Stitch Over the Edge to Secure Panel

Small Front Panel

1. Move Edge of Pattern to Edge of Paper to Make a Larger Pouch
2. Cut 1 Large Back Panel
3. Cut 1 Small Front Panel
4. Cement Small Panel to Large Panel
Along the Bottom and Ends
5. Punch Holes for Stitching
6. Stitch Outside Edges
7. Thread Lace Through Hole, to Wrap Around Pouch & Tie a Bow

Stitch Lines - - - - -

Move Edge of Pattern to Edge of Paper to Make a Larger Pouch to Hold # 10 Envelope.

Cuff - Wristband Blanks

“ Design Your Own “

	Lengths				Widths
